Did this scan use Siemens HDFT Protocol?

(Enter N/A if your site is not doing HDFT protocol) ☐ Yes ☐ No ☐ NA

### 1. Localizer

Check participant positioning in the head coil. Re-position and re-scout if necessary.

Comments: 

Localizer completed?

☐ Yes ☐ No

### 2. Sagittal 3D T1 MP-RAGE/IR-SPGR

Position the acquisition box to contain the whole brain and skull. Studies without full brain coverage cannot be processed. Do not oblique the scanning slices to compensate for subject held tilt. Scan as straight Sagittal.

Comments: 

Sagittal 3D T1 MP-RAGE/IR-SPGR Completed?

☐ Yes ☐ No

### 3. Sagittal 3D T2\* GRE/SWAN/SWI

Reproduce the positioning used for the MP-RAGE/IR-SPGR sequence obtained in item 2.

Comments:

Sagittal 3D T2\* GRE/SWAN/SWI Completed?

☐ Yes ☐ No

#### 4. Axial DTI

Orientation is Straight Axial. Prescribe the 3D Slab inferior to superior. Do not oblique the slab to compensate for subject held tilt. Scan as Straight Axial.

Comments:

Axial DTI Completed?

☐ Yes ☐ No

#### 5. Resting State fMRI

Orientation is Straight Axial. Do not oblique scans. Position on mid-sagittal slice from tri-planar scout. The acquisition stack should be placed just above the most superior point in the brain and should cover the cerebellum if possible.

## Flexible Outcome Assessment Flowchart

The Flexible Outcome Assessment Flowchart shown below illustrates the decision rules for selection of the appropriate test battery.

## Test Completion Codes

Test Attempted and completed	
1.0	Test completed in full, in person- results valid
1.1	Non-standard administration – a measure normally requiring an oral response, allowed a written response, results valid
1.2	Non-standard administration –Other (specify):_____
1.3	Test Completed, valid administration done over the phone
Test Attempted but NOT completed	
2.1	Test attempted but not completed due to cognitive/neurological reason
2.2	Test attempted but not completed due to non-neurological/physical reasons
2.3	Test attempted but not completed - participant cognitively intact enough to respond but poor effort, random responding, rote response, not cooperative, refusal, intoxication
2.4	Test attempted but not completed due to major problems with English language proficiency (and/or Spanish language proficiency if the site can also enroll Spanish speaking subjects)
2.5	Test attempted but not completed due to test interrupted by illness and test could not be completed later
2.6	Test attempted but not completed due to logistical reasons, other reasons – site specific
Test not attempted	
3.1	Test not attempted due to severity of cognitive/neurological deficits
3.2	Test not attempted due to non-neurological/physical reasons
3.3	Test not attempted - participant can respond appropriately but poor effort, not cooperative, refusal, intoxication
3.4	Test not attempted due to major problems with English language proficiency (and/or Spanish language proficiency if the site can also enroll Spanish speaking subjects)
3.5	Test not attempted due to participant illness and test could not be completed later
3.6	Test not attempted due to logistical reasons, other reasons – site specific
4.0	Test not attempted, completed or valid due to examiner error
5.0	Other (specify:_____)

**Speech Intelligibility**

Date  Start Time  Stop Time  Time Spent

After the participant has been greeted and oriented to the assessment, engage him or her in informal conversation to determine if expressive speech is intelligible at the sentence level. Prompt the subject to repeat the sentence, "In May the apple trees blossom" and record the response verbatim:

☐ Yes ☐ No

Was the speech intelligible?

If the subject's verbal output is not fully intelligible (ie, one or more words cannot be understood), instruct the participant to write the following sentence, "In May, the apple trees blossom" in the space below. Fold the page in half so the top half showing the verbal response is not visible to the participant:

☐ Yes ☐ No

Was writing legible?

Confounding Issues

Respondent:

- ☐ Patient alone  
☐ Relative/friend/caretaker alone  
☐ Patient plus relative/friend/caretaker

**Consciousness:**

1. Is the head-injured person able to obey simple commands or say any words?

- ☐ No (VS)  
☐ Yes

Note: Anyone who shows ability to obey even simple commands or utter any word or communicate specifically in any other way is no longer considered to be in the vegetative state. The examiner should review the results of the CRS-R and consult with nursing/clinical staff before assigning a rating of vegetative state on question #1.

**Independence at home:**

2a. Is the assistance of another person at home essential every day for some activities of daily living?

- ☐ No  
☐ Yes

Note: for a NO answer they should be able to look after themselves at home for 24 hours if necessary, though they need not actually look after themselves. Independence includes the ability to plan for and carry out the following activities: getting washed, putting on clean clothes without prompting, preparing food for themselves, dealing with callers and handling minor domestic crises. The person should be able to carry out activities without needing prompting or reminding and should be capable of being left alone overnight.

2b. Do they need frequent help of someone to be around at home most of the time?

- ☐ No (upper SD)  
☐ Yes (lower SD)

Note: for a NO answer they should be able to look after themselves at home up to eight hours during the day if necessary, though they need not actually look after themselves

2c. Was assistance at home essential before the injury?

- ☐ No

☐ Yes**Independence outside home:**

3a. Are they able to shop without assistance?

☐ No (upper SD)☐ Yes

Note: this includes being able to plan what to buy, take care of money themselves and behave appropriately in public. They need not normally shop, but must be able to do so.

3b. Were they able to shop without assistance before?

☐ No☐ Yes

4a. Are they able to travel locally without assistance?

☐ No (upper SD)☐ Yes

Note: they may drive or use public transport to get around. Ability to use a taxi is sufficient, provided the person can phone for it themselves and instruct the driver.

4b. Were they able to travel locally without assistance before the injury?

☐ No☐ Yes**Work:**

5a. Are they currently able to work to their previous capacity?

☐ No☐ Yes

Note: If they were working before, then their current capacity for work should be at the same level. If they were seeking work before, then the injury should not have adversely affected their chances of obtaining work or the level of work for which they are eligible. If the patient was a student before injury then their capacity for study should not have been adversely affected.

5b. How restricted are they?

☐ Reduced work capacity (Upper MD)☐ Able to work only in a sheltered workshop or non-competitive job or currently unable to work (Lower MD)

5c. Were they either working or seeking employment before the injury (answer 'yes') or were they doing neither (answer 'no')?

☐ No☐ Yes**Social and Leisure activities:**

6a. Are they able to resume regular social and leisure activities outside home?

☐ No☐ Yes

Note: they need not have resumed all their previous leisure activities, but should not be prevented by physical or mental impairment. If they have stopped the majority of activities because of loss of interest or motivation, then this is also considered a disability.

6b. What is the extent of restriction on their social and leisure activities?

☐ Participate a bit less; at least half as often as before injury (Lower GR)☐ Participate much less; less than half as often (Upper MD)☐ Unable to participate; rarely, if ever, take part (Lower MD)

6c. Did they engage in regular social and leisure activities outside home before the injury?

☐ No☐ Yes**Family and friendships:**

7a. Has there been family or friendship disruption due to psychological problems?

☐ No☐ Yes

Note: typical post-traumatic personality changes are: quick temper, irritability, anxiety, insensitivity to others, mood swings, depression and unreasonable or childish behavior.

7b. What has been the extent of disruption or strain?

☐ Occasional - less than weekly (Lower GR)☐ Frequent - once a week or more, but tolerable (Upper MD)☐ Constant - daily and intolerable (Lower MD)

7c. Were there problems with family or friends before the injury?

☐ No☐ Yes

Note: if there were some problems before injury, but these have become markedly worse since the injury then answer No to question

**Return to normal life:**

8a. Are there any other current problems relating to the injury which affect daily life?

- ☐ No (upper GR)  
☐ Yes (lower GR)

Note: other typical problems reported after head injury: headaches, dizziness, sensitivity to noise or light, slowness, memory failures and concentration problems.

8b. Were similar problems present before the injury?

- ☐ No  
☐ Yes

Note: If there were some problems before injury, but these have become markedly worse since injury then answer 'No' to Q8b.

Scoring: The patient's overall rating is based on the lowest outcome category indicated on the scale. Refer to Guidelines for further information concerning administration and scoring

<p>The GOSE-Revised was created in an attempt to document the impact peripheral or non-CNS injuries obtained at the time of the study related injury have on the final rating. Two scores will be obtained. The first will be an 'All' rating which looks at the participant's change in overall level of dependence as a function of the injury. This score will include effects of the TBI (brain) as well as peripheral injuries sustained in the same accident. The second score will remove the obvious impact of the peripheral injuries leaving the disability rating that may be due to the TBI.*</p> <p>(*If a new injury occurs after the study injury, include the <i>cumulative effects of all brain and peripheral injuries</i> in the 'All' rating. The 'TBI' score will remove the effects of <i>all</i> peripheral injuries)</p> <p>The same format will be applied to each set of questions. For example, the GOSE-Revised would be administered as follows for travel outside the home.</p> <p>Assess any limitations with travel as always for questions 4a and 4b. If travel is limited ask,</p> <p>4c. 'Does your _____ (broken leg) contribute to the limitations with travel?'</p> <p>4d. Then, 'If you did not have the _____ (broken leg) do you think you would be able to travel locally without assistance?'</p> <p>If travel is not limited proceed to question 5a skipping 4c and 4d.</p>				

**Respondent:**

- ☐ Patient alone
- ☐ Relative/friend/caretaker alone
- ☐ Patient plus relative/friend/caretaker

**Peripheral Injuries**

A. Did you sustain any other system injuries or peripheral injuries (e.g., fractured limbs, spinal cord injury, complications from other system surgeries, etc.) in addition to your TBI?

- ☐ No
- ☐ Yes (record all of these injuries below)

A1. Record all peripheral type injuries on the lines provided and refer to them specifically below as noted\*:

(\*If a new injury occurs after the study injury, record all peripheral injuries below)

**Consciousness:**

1. Is the head-injured person able to obey simple commands or say any words?

- ☐ No (VS)
- ☐ Yes

Note: Anyone who shows ability to obey even simple commands or utter any word or communicate specifically in any other way is no longer considered to be in the vegetative state. The examiner should review the results of the CRS-R and consult with nursing/clinical staff before assigning a rating of vegetative state on question #1.

**Independence at home:**

2a. Is the assistance of another person at home essential every day for some activities of daily living?

- ☐ No - go to 3a
- ☐ Yes - go to 2b

Note: for a NO answer they should be able to look after themselves at home for 24 hours if necessary, though they need not actually look after themselves. Independence includes the ability to plan for and carry out the following activities: getting washed, putting on clean clothes without prompting, preparing food for themselves, dealing with callers and handling minor domestic crises. The person should be able to carry out activities without needing prompting or reminding and should be capable of being left alone overnight.

2b. Do you need frequent help or someone to be around at home most of the time?

- ☐ No (Upper SD All)
- ☐ Yes (Lower SD All)

Note: for a NO answer they should be able to look after themselves at home up to eight hours during the day if necessary, though they need not actually look after themselves

2c. Was assistance at home essential before the injury?

- ☐ No
- ☐ Yes

2d. Does your \_\_\_\_\_ (specify problem(s) identified in question "A" above – e.g., your broken leg) contribute to the limitations described here?

- ☐ No - go to 3a (TBI rating = All Rating)
- ☐ Yes - go to 2e

2e. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), do you think the assistance of another person at home would be essential every day for some activities of daily living?

- ☐
- ☐ No - go to 3a
- ☐ Yes - go to 2f

Note: For a 'No' answer they should be able to look after themselves at home for 24 hours if necessary, though they need not actually look after themselves. Independence includes the ability to plan for and carry out the following activities: getting washed, putting on clean clothes without prompting, preparing food for themselves, dealing with callers, and handling minor domestic crises. The person should be able to carry out activities without needing prompting or reminding, and should be capable of being left alone overnight.

2f. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), would you need frequent help or someone to be around at home most of the time?

- ☐
- ☐ No (Upper SD TBI)
- ☐ Yes (Lower SD TBI)

Note: For a 'No' answer they should be able to look after themselves at home for up to 8 hours during the day if necessary, though they need not actually look after themselves

**Independence outside home:**

3a. Are you able to shop without assistance?

- ☐ No (Upper SD All)

☐ Yes - go to 4a

Note: this includes being able to plan what to buy, take care of money themselves and behave appropriately in public. They need not normally shop, but must be able to do so.

3b. Were you able to shop without assistance before the injury?

☐ No

☐ Yes

3c. Does your \_\_\_\_\_ (specify problem(s) identified in question "A" above – e.g., your broken leg) contribute to limitations with shopping?

☐ No - go to 4a (TBI rating = All Rating)

☐ Yes - go to 3d

3d. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), do you think you would be able to shop without assistance?

☐

☐ No - (Upper SD TBI)

☐ Yes

4a. Are they able to travel locally without assistance?

☐ No (Upper SD All)

☐ Yes - go to 5a

Note: they may drive or use public transport to get around. Ability to use a taxi is sufficient, provided the person can phone for it themselves and instruct the driver.

4b. Were they able to travel locally without assistance before the injury?

☐ No

☐ Yes

4c. Does your \_\_\_\_\_ (specify problem(s) identified in question "A" above – e.g., your broken leg), contribute to limitations with travel?

☐ No - go to 5a (TBI rating = All Rating)

☐ Yes - go to 4d

4d. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), do you think you would be able to travel locally without assistance?

☐

☐ No (Upper SD TBI)

☐ Yes

#### Work:

(If the person was a student before injury, then "study" can be substituted for "work" and this section should be completed accordingly.)

5a. Were you either working or seeking employment before the injury (answer 'yes') or were you doing neither (answer 'no')?

(if not considered a worker, (i.e. retired, homemaker, permanently disabled), mark 5A as "No" and 5B as "Yes")

☐ No

☐ Yes

5b. Are you currently able to work to your previous capacity?

☐ No - go to 5c

☐ Yes - go to 6a

Note: If you were working before, then your current capacity for work should be at the same level. If you were seeking work before, then the injury should not have adversely affected your chances of obtaining work or the level of work for which you are eligible. If you were a student before the injury then your capacity for study should not have been adversely affected.

5c. How restricted are you?

☐ Reduced work capacity (Upper MD All)

☐ Able to work only in a sheltered workshop or non-competitive job or currently unable to work (Lower MD All)

5d. Does your \_\_\_\_\_ (specify problem(s) identified in question "A" above – e.g., your broken leg) contribute to limitations with work/school?

☐ No - go to 6a (TBI rating = All rating)

☐ Yes - go to 5e

5e. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), do you think you would be able to work to your previous capacity?

☐

☐ No - go to 5f

☐ Yes - go to 6a

5f. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), how restricted do you think you would be?

☐

- ☐ Reduced work capacity (Upper MD TBI)
- ☐ Able to work only in a sheltered workshop or non-competitive job or currently unable to work (Lower MD TBI)

**Social and Leisure activities:**

6a. Did you engage in regular social and leisure activities outside home before the injury?

- ☐ No
- ☐ Yes

6b. Are you able to resume regular social and leisure activities outside home?

- ☐ No - go to 6c
- ☐ Yes - go to 7a

6c. What is the extent of restriction on your social and leisure activities?

- ☐ Participate a bit less; at least half as often as before injury (Lower GR All)
- ☐ Participate much less; less than half as often (Upper MD All)
- ☐ Unable to participate; rarely, if ever, take part (Lower MD All)

6d. Does your \_\_\_\_\_ (specify problem(s) identified in question "A" above – e.g., your broken leg) contribute to limitations with social and leisure activities?

- ☐ No - go to 7a (TBI rating = All rating)
- ☐ Yes - go to 6e

6e. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), do you think you would be able to resume regular social and leisure activities outside the home?

- ☐
- ☐ No - go to 6f
- ☐ Yes - go to 7a

6f. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), how restricted do you think you would be?

- ☐
- ☐ Participate a bit less, at least half as often as before injury (Lower GR TBI)
- ☐ Participate much less, less than half as often (Upper MD TBI)
- ☐ Unable to participate, rarely, if ever, take part (Lower MD TBI)

**Family and friendships:**

7a. Have there been psychological problems which have resulted in ongoing family disruption or disruption to friendships?

- ☐ No - go to 8a
- ☐ Yes - go to 7b

Note: Typical post-traumatic personality changes: quick temper, irritability, anxiety, insensitivity to others, mood swings, depression, and unreasonable or childish behavior

7b. What has been the extent of disruption or strain?

- ☐ Occasional - less than weekly (Lower GR All)
- ☐ Frequent - once a week or more, but tolerable (Upper MD All)
- ☐ Constant - daily and intolerable (Lower MD All)

7c. Were there problems with family or friends before the injury?

- ☐ No
- ☐ Yes

Note: If there were some problems before injury, but these have become markedly worse since injury then answer 'No' to this question

7d. Does your \_\_\_\_\_ (specify problem(s) identified in question "A" above – e.g., your broken leg) contribute to limitations with family & friendships?

- ☐ No - go to 8a (TBI rating = All rating)
- ☐ Yes - go to 7e

7e. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), do you think there would be psychological problems which result in ongoing family disruption or disruption to friendships?

- ☐
- ☐ No - go to 8a
- ☐ Yes - go to 7f

7f. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), what do you think the extent of the disruption or strain would be?

- ☐
- ☐ Occasional - less than weekly (Lower GR TBI)
- ☐ Frequent - once a week or more, but tolerable (Upper MD TBI)
- ☐ Constant - daily and intolerable (Lower MD TBI)

**Return to normal life:**

8a. Are there any other current problems relating to the injury which affect daily life?

- ☐ No (Upper GR All) - End Here  
☐ Yes (Lower GR All)

Note: Other typical problems reported after head injury: headaches, dizziness, tiredness, sensitivity to noise or light, slowness, memory failures, and concentration problems

8b. Were similar problems present before the injury?

- ☐ No  
☐ Yes

Note: If there were some problems before injury, but these have become markedly worse since injury then answer 'No' to Q8b.

8c. Does your \_\_\_\_\_ (specify problem(s) identified in question "A" above – e.g., your broken leg) contribute to any other current problems which affect daily life?

- ☐ No - End here (TBI rating = All rating)  
☐ Yes - go to 8d

8d. If you did not have \_\_\_\_\_ (specify problem(s) identified in question "A" above), do you think you would have current problems that affect daily life?

- ☐  
☐ No (Upper GR TBI)  
☐ Yes (Lower GR TBI)

Scoring: The patient's overall rating is based on the lowest outcome category indicated on the scale. Refer to guidelines for further information concerning administration and scoring. Record the lowest score due to all injury related limitations (GOSE-All) and the lowest score with any limitations from other system injuries removed (GOSE-TBI).

#### GOSE-All Score:

- ☐ 1-Dead  
☐ 2-Vegetative State (VS)  
☐ 3-Lower Severe Disability (Lower SD)  
☐ 4-Upper Severe Disability (Upper SD)  
☐ 5-Lower Moderate Disability (Lower MD)  
☐ 6-Upper Moderate Disability (Upper MD)  
☐ 7-Lower Good Recovery (Lower GR)  
☐ 8-Upper Good Recovery (Upper GR)

#### GOSE-TBI Score:

- ☐ 1-Dead  
☐ 2-Vegetative State (VS)  
☐ 3-Lower Severe Disability (Lower SD)  
☐ 4-Upper Severe Disability (Upper SD)  
☐ 5-Lower Moderate Disability (Lower MD)  
☐ 6-Upper Moderate Disability (Upper MD)  
☐ 7-Lower Good Recovery (Lower GR)  
☐ 8-Upper Good Recovery (Upper GR)

Describe the person's situation and provide details about the reasons for each GOSE rating.

**Examiner:** Questions 12a & 12b ask about entire work days missed and Questions 12c & 12d ask about partial work days missed. Entire work day is defined as the number of hours the person is normally expected to work (e.g., a 4 hour work day is typically an entire work day for someone who works part-time and an 8 hour work day is an entire work day for a full time worker). Work days that are missed partially or entirely but later the missed time is made up are still counted in Questions 12a-d. Note that Questions 12c & d are for work days that are partially missed only (entire work days missed are just counted under 12a & 12b).

12. Now please think of your work experiences over the past 4 weeks (28 days). In the spaces below,  
provide the number of days you spent in each of the following work situations. In the past 4 weeks (28  
days), how many days did you.....

**Examiner:** Questions 15a & 15b ask about entire work days missed and questions 15c & 15d ask about partial work days missed. Entire work day is defined as the number of hours the person is normally expected to work (e.g., a 4 hour work day is typically an entire work day for someone who works part-time and an 8 hour work day is an entire work day for a full time worker). Work days that are missed partially or entirely but later the missed time is made up are still counted in questions 15a-d. Note that questions 15c & d are for work days that are partially missed only (entire work days missed are just counted under 15a & 15b).

**If a subject is unemployed, it will be important to find out if this is the sole reason they are not working when answering the following questions. For instance a patient who would otherwise be able to work but has no job to go to would be coded as '0' in 15a and '20' in 15b (provided they were working a 5 day week). See details and further examples in the data dictionary.**

15. Now please think of your work experiences over the past 4 weeks (28 days). In the spaces below, provide the number of days you spent in each of the following work situations. In the past 4 weeks (28 days), how many days did you.....

### Income and Assets

The next questions are about things like your income, wealth, and where you live. We are asking these questions to better understand how income and wealth may help or hinder being able to receive health care services. We understand that these are sensitive questions, and like the rest of the survey, your answers to these questions will be kept confidential. You are also free not to answer any question you find objectionable.

67. A household includes all the persons who occupy a house, an apartment, a mobile home, a group of rooms, or a single room. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. How many people live in your household?

68. During the last year, how much money did you receive from wages or salary, tips, commissions, or bonuses, or your own business or practice, before taxes and other deductions?

69. I would like to now ask you some questions about your total household income. Income can come from a number of sources: jobs, net income from business, farm or rent, pensions, dividends, interest, social security payments and any other money income. What was your total household income in the last year (before taxes and other deductions)?

70. Do you own your home or apartment, pay rent, stay with family or friends, or something else?

71. What is the total value of that property in U.S. dollars? (Answer only if the homeowner)

72. What is your household net worth? Net worth is the value of what every member of your household owns (such as cars, real estate, savings, retirement accounts) minus what every member of your household owes. Do not include the value of life insurance, home furnishings or jewelry. (Examiners: This question can be difficult for many people to answer. Encourage them to take their best estimated guess. May first try getting them to narrow the response options to a couple and then select what seems to be the best.)

Confounding Issues

After a head injury or accident some people experience symptoms that can cause worry or nuisance. We would like to know if you now suffer any of the symptoms given below. Because many of these symptoms occur normally, we would like you to compare yourself now with before the accident. For each symptom listed below please select the number that most closely represents your answer.

- 0 = not experienced at all  
 1 = no more of a problem  
 2 = a mild problem  
 3 = a moderate problem  
 4 = a severe problem

Compared with **before** the accident, do you **now** (i.e., over the last 7 days) suffer from:

Headaches

- ☐ 0-Not experienced at all  
☐ 1- No more of a problem  
☐ 2- A mild problem

The Insomnia Severity Index has seven questions. The seven answers are added up to get a total score. When you have your total score, look at the 'Guidelines for Scoring/Interpretation' below to see where your sleep difficulty fits. For each question, please SELECT the number that best describes your answer.

Please rate the CURRENT (i.e. LAST 2 WEEKS) SEVERITY of your insomnia problem(s).

1. Difficulty falling asleep

- ☐ 0 None
- ☐ 1 Mild
- ☐ 2 Moderate
- ☐ 3 Severe
- ☐ 4 Very Severe

2. Difficulty staying asleep

- ☐ 0 None
- ☐ 1 Mild
- ☐ 2 Moderate
- ☐ 3 Severe
- ☐ 4 Very Severe

3. Problems waking up too early

- ☐ 0 None
- ☐ 1 Mild

- ☐ 2 Moderate  
☐ 3 Severe  
☐ 4 Very Severe
4. How SATISFIED/DISSATISFIED are you with your CURRENT sleep pattern?
- ☐ 0 Very Satisfied  
☐ 1 Satisfied  
☐ 2 Moderately Satisfied  
☐ 3 Dissatisfied  
☐ 4 Very Dissatisfied
5. How NOTICEABLE to others do you think your sleep problem is in terms of impairing the quality of your life?
- ☐ 0 Not at all Noticeable  
☐ 1 A Little  
☐ 2 Somewhat  
☐ 3 Much  
☐ 4 Very Much Noticeable
6. How WORRIED/DISTRESSED are you about your current sleep problem?
- ☐ 0 Not at all Worried  
☐ 1 A Little  
☐ 2 Somewhat  
☐ 3 Much  
☐ 4 Very Much Worried
7. To what extent do you consider your sleep problem to INTERFERE with your daily functioning (e.g. daytime fatigue, mood, ability to function at work/daily chores, concentration, memory, mood, etc.) CURRENTLY?
- ☐ 0 Not at all Interfering  
☐ 1 A Little  
☐ 2 Somewhat  
☐ 3 Much  
☐ 4 Very Much Interfering

Below each item, circle the number that best describes the level at which the person being evaluated experiences problems. Mark the greatest level of problem that is appropriate. Problems that interfere rarely with daily or valued activities, that is, less than 5% of the time, should be considered not to interfere. Write comments about specific items at the end of the rating scale.

**Person Reporting**  
☐ Study participant  
☐ Caregiver/Surrogate

**Participation**  
  
1. Initiation: Problems getting started on activities without prompting  
☐ 0-None  
☐ 1-Mild problem but does not interfere with activities; may use assistive device or medication  
☐ 2-Mild problem; interferes with activities 5-24% of the time  
☐ 3-Moderate problem; interferes with activities 25-75% of the time  
☐ 4-Severe problem; interferes with activities more than 75% of the time  
  
2. Social contact with friends, work associates, and other people who are not family, significant others, or professionals  
☐ 0-Normal involvement with others  
☐ 1-Mild difficulty in social situations but maintains normal involvement with others  
☐ 2-Mildly limited involvement with others (75-95% of normal interaction for age)  
☐ 3-Moderately limited involvement with others (25-74% of normal interaction for age)  
☐ 4-No or rare involvement with others (less than 25% of normal interaction for age)  
  
3. Leisure and recreational activities  
☐ 0-Normal participation in leisure activities for age  
☐ 1-Mild difficulty in these activities but maintains normal participation  
☐ 2-Mildly limited participation (75-95% of normal participation for age)  
☐ 3-Moderately limited participation (25-74% of normal participation for age)  
☐ 4-No or rare participation (less than 25% of normal participation for age)  
  
4. Self-care: Eating, dressing, bathing, hygiene  
☐ 0-Independent completion of self-care activities  
☐ 1-Mild difficulty, occasional omissions or mildly slowed completion of self-care; may use assistive device or require occasional prompting  
☐ 2-Requires a little assistance or supervision from others (5-24% of the time) including frequent prompting  
☐ 3-Requires moderate assistance or supervision from others (25-75% of the time)  
☐ 4-Requires extensive assistance or supervision from others (more than 75% of the time)  
  
5. Residence: Responsibilities of independent living and homemaking (such as, meal preparation, home repairs and maintenance, personal health maintenance beyond basic hygiene including medical management) but not including managing money (see #8)

- ☐ 0-Independent; living without supervision or concern from others
- ☐ 1-Living without supervision but others have concerns about safety or managing responsibilities
- ☐ 2-Requires a little assistance or supervision from others ( 5-24% of the time)
- ☐ 3-Requires moderate assistance or supervision from others (25-75% of the time)
- ☐ 4-Requires extensive assistance or supervision from others (more than 75% of the time)

6. \*Transportation

- ☐ 0- Independent in all modes of transportation including independent ability to operate a personal motor vehicle
- ☐ 1- Independent in all modes of transportation, but others have concerns about safety
- ☐ 2- Requires a little assistance or supervision from others (5-24% of the time); cannot drive
- ☐ 3- Requires moderate assistance or supervision from others (25-75% of the time); cannot drive
- ☐ 4- Requires extensive assistance or supervision from others (more than 75% of the time); cannot drive

7A. \*Paid Employment: Rate either item 7A or 7B to reflect the primary desired social role. Do not rate both. Rate 7A if the primary social role is paid employment. If another social role is primary, rate only 7B. For both 7A and 7B, "support" means special help from another person with responsibilities (such as, a job coach or shadow, tutor, helper) or reduced responsibilities. Modifications to the physical environment that facilitate employment are not considered as support.

- ☐ 0- Full-time (more than 30 hrs/wk) without support
- ☐ 1- Part-time (3 to 30 hrs/ wk) without support
- ☐ 2- Full-time or part-time with support
- ☐ 3- Sheltered work
- ☐ 4- Unemployed; employed less than 3 hours per week

7B. \*Other employment: Involved in constructive, role-appropriate activity other than paid employment. Check only one to indicate primary desired social role: Childrearing/care-giving Homemaker, no childrearing or care-giving Student Volunteer Retired (Check retired only if over age 60; if unemployed, retired as disabled and under age 60, indicate "Unemployed" for item 7A.

- ☐ 0- Full-time (more than 30 hrs/wk) without support; full-time course load for students
- ☐ 1- Part-time (3 to 30 hrs/ wk) without support
- ☐ 2- Full-time or part-time with support
- ☐ 3- Activities in a supervised environment other than a sheltered workshop

Confounding Issues

**Instructions:** This questionnaire asks about problems you may have had after a very stressful experience involving actual or threatened death, serious injury, or sexual violence. It could be something that happened to you directly, something you witnessed, or something you learned happened to a close family member or close friend. Some examples are a serious accident; fire; disaster such as a hurricane, tornado, or earthquake; physical or sexual attack or abuse; war; homicide; or suicide.

First, please answer a few questions about your worst event, which for this questionnaire means the event that currently bothers you the most. This could be one of the examples above or some other very stressful experience. Also, it could be a single event (for example, a car crash) or multiple similar events (for example, multiple stressful events in a war-zone or repeated sexual abuse).

Have you experienced any very serious events like this?

☐ Yes ☐ No

If yes: can you please briefly tell me what the event(s) was/were?

If you have not experienced a very stressful event like the ones described, identify the most stressful event you have ever

experienced, and then complete the questionnaire using that event as your reference for the remaining questions about how much that event has bothered you.

Briefly identify the worst event if it is not described above:

How long ago did it happen?  
(please estimate if unsure)

- ☐ < 1 month  
☐ 1-6 months  
☐ 7-12 months  
☐ 1-2yrs  
☐ 3-5 yrs  
☐ 6-10 yrs  
☐ >10 yrs

Did it involve actual or threatened death, serious injury, or sexual violence?

☐ Yes ☐ No

How did you experience it?

- ☐ It happened to me directly  
☐ I witnessed it  
☐ I learned about it happening to a close family member or close friend  
☐ I was repeatedly exposed to details about it as part of my job  
☐ Other

Please describe:

If the event involved the death of a close family member or close friend, was it due to some kind of accident or violence, or was it due to natural causes?

- ☐ Accident or violence  
☐ Natural causes  
☐ Not applicable (no death)

Keeping this worst event in mind, read each of the problems on the next page and indicate how much you have been bothered by that problem in the past month in the past month.

*In the past month, how much were you bothered by:*

1. Repeated, disturbing, and unwanted memories of the stressful experience?

- ☐ 0 Not at all  
☐ 1 A little bit  
☐ 2 Moderately  
☐ 3 Quite a bit  
☐ 4 Extremely

2. Repeated, disturbing dreams of the stressful experience?

- ☐ 0 Not at all
