FOLLOW UP APPOINTMENTS

Milestone Windows:
CA+MRI , 2-wk MRI must be completed 14 ± 4 days from DOI. 2-week outcomes must be completed ± 3 days of the 2-wk MRI.
CA , 2-week outcomes must be completed ± 4 days of 14 days from DOI.
Outcomes , 3-mos must be completed ± 7 days of 90 days from DOI.
CA+MRI , MRI at 6-mo must be completed ± 14 days of 180 days from DOI, with 6-mo outcomes ± 14 days of the 6-mo MRI.
CA and BA patients , 6-mo outcomes must be completed ± 14 days of 180 days from DOI.
6 Mo BTACT , should be completed within ± 7 days of Outcomes (but not on the same day and no greater than 201 days from injury).
Outcomes ,12 mos must be completed ± 30 days of 360 days from DOI.

Coding for "Did Pt Show Up". Enter N/A if pt has expired or withdrawn. The Appointment Outcome field can be left blank. For CA cohort, code the MRI Milestone fields as N/A.

## Comments:

1. **Localizer**
   Check participant positioning in the head coil. Re-position and re-scout if necessary.

   Comments: [ ]

   Localizer completed? [ ]

2. **Sagittal 3D T1 MP-RAGE/IR-SPGR**
   Position the acquisition box to contain the whole brain and skull. Studies without full brain coverage cannot be processed. Do not oblique the scanning slices to compensate for subject held tilt. Scan as straight Sagittal.

   Comments: [ ]

   Sagittal 3D T1 MP-RAGE/IR-SPGR Completed? [ ]

3. **Sagittal 3D T2* GRE/SWAN/SWI**
Reproduce the positioning used for the MP-RAGE/IR-SPGR sequence obtained in item 2.
Comments:

Sagittal 3D T2* GRE/SWAN/SWI Completed?
☐ Yes ☐ No

4. Axial DTI
Orientation is Straight Axial. Prescribe the 3D Slab inferior to superior. Do not oblique the slab to compensate for subject held tilt. Scan as Straight Axial.
Comments:

Axial DTI Completed?
☐ Yes ☐ No

5. Resting State fMRI
Orientation is Straight Axial. Do not oblique scans. Position on mid-sagittal slice from tri-planar scout. The acquisition stack should be placed just above the most superior point in the brain and should cover the cerebellum if possible.
Comments:

Resting State fMRI Completed?
☐ Yes ☐ No

6. Sagittal 3D T2-FLAIR CUBE/SPACE/VISTA
Reproduce the positioning used for the MP-RAGE/IR-SPGR sequence obtained in item 2.
Comments:

Sagittal 3D T2 FLAIR CUBE/SPACE/VISTA Completed?
☐ Yes ☐ No

7. Sagittal 3D T2-TSE
Reproduce the positioning used for the MP-RAGE/IR-SPGR sequence obtained in item 2.
Comments:

Sagittal 3D T2-TSE Completed?
☐ Yes ☐ No

Flexible Outcome Assessment Flowchart

The Flexible Outcome Assessment Flowchart shown below illustrates the decision rules for selection of the appropriate test battery.

**On follow-up, if the 2 week (or prior assessment) was completed up to the:**
1. Comprehensive Assessment Battery (CAB), then repeat CAB
2. CAP Cognitive Impairment (CAP-COG), then repeat one of the forms of the GOAT and follow flow chart
3. Coma Recovery Scale-Revised (CRS-R), then repeat CRS-R and follow step-up rules

After the participant has been greeted and oriented to the assessment, engage him or her in informal conversation to determine if expressive speech is intelligible at the sentence level. Prompt the subject to repeat the sentence, “In May the apple trees blossom” and record the response verbatim:

Was the speech intelligible?

[ ] Yes  [ ] No

If the subject’s verbal output is not fully intelligible (ie, one or more words cannot be understood), instruct the participant to write the following sentence, “In May, the apple trees blossom” in the space below. Fold the page in half so the top half showing the verbal response is not visible to the participant:

Consciousness:
1. Is the head-injured person able to obey simple commands or say any words?
- No (VS)
- Yes

Note: Anyone who shows ability to obey even simple commands or utter any word or communicate specifically in any other way is no longer considered to be in the vegetative state. The examiner should review the results of the CRS-R and consult with nursing/clinical staff before assigning a rating of vegetative state on question #1.

- No - go to 3a
- Yes - go to 2b

Note: for a NO answer they should be able to look after themselves at home for 24 hours if necessary, though they need not actually look after themselves. Independence includes the ability to plan for and carry out the following activities: getting washed, putting on clean clothes without prompting, preparing food for themselves, dealing with callers and handling minor domestic crises. The person should be able to carry out activities without needing prompting or reminding and should be capable of being left alone overnight.

2b. Do you need frequent help or someone to be around at home most of the time?
- No (Upper SD All)
- Yes (Lower SD All)

Note: for a NO answer they should be able to look after themselves at home up to eight hours during the day if necessary, though they need not actually look after themselves.

2c. Was assistance at home essential before the injury?
- No
- Yes

Independence outside home:
3a. Are you able to shop without assistance?
- No (Upper SD All)
- Yes - go to 4a

Note: this includes being able to plan what to buy, take care of money themselves and behave appropriately in public. They need not normally shop, but must be able to do so.

3b. Were you able to shop without assistance before the injury?
- No
- Yes

4a. Are they able to travel locally without assistance?
- No (Upper SD All)
- Yes - go to 5a

Note: they may drive or use public transport to get around. Ability to use a taxi is sufficient, provided the person can phone for it themselves and instruct the driver.

4b. Were they able to travel locally without assistance before the injury?
- No
- Yes

Work:

(If the person was a student before injury, then "study" can be substituted for "work" and this section should be completed accordingly.)

5a. Were you either working or seeking employment before the injury (answer 'yes') or were you doing neither (answer 'no')? (if not considered a worker, (i.e. retired, homemaker, permanently disabled), mark 5A as "No" and 5B as "Yes")
- No
- Yes

5b. Are you currently able to work to your previous capacity?
- No - go to 5c
- Yes - go to 6a

Note: If you were working before, then your current capacity for work should be at the same level. If you were seeking work before, then the injury should not have adversely affected your chances of obtaining work or the level of work for which you are eligible. If you were a student before the injury then your capacity for study should not have been adversely affected.

5c. How restricted are you?
- Reduced work capacity (Upper MD All)
- Able to work only in a sheltered workshop or non-competitive job or currently unable to work (Lower MD All)

Social and Leisure activities:
6a. Did you engage in regular social and leisure activities outside home before the injury?
- No
- Yes

6b. Are you able to resume regular social and leisure activities outside home?
- No - go to 6c
- Yes - go to 7a

6c. What is the extent of restriction on your social and leisure activities?
- Participate a bit less; at least half as often as before injury (Lower GR All)
- Participate much less; less than half as often (Upper MD All)
- Unable to participate; rarely, if ever, take part (Lower MD All)

**Family and friendships:**

7a. Have there been psychological problems which have resulted in ongoing family disruption or disruption to friendships?
- No - go to 8a
- Yes - go to 7b

Note: Typical post-traumatic personality changes: quick temper, irritability, anxiety, insensitivity to others, mood swings, depression, and unreasonable or childish behavior

7b. What has been the extent of disruption or strain?
- Occasional - less than weekly (Lower GR All)
- Frequent - once a week or more, but tolerable (Upper MD All)
- Constant - daily and intolerable (Lower MD All)

7c. Were there problems with family or friends before the injury?
- No
- Yes

Note: If there were some problems before injury, but these have become markedly worse since injury then answer ‘No’ to this question

**Return to normal life:**

8a. Are there any other current problems relating to the injury which affect daily life?
- No (Upper GR All) - End Here
- Yes (Lower GR All)

Note: Other typical problems reported after injury: numbness, weakness, mobility problems, inability to use extremity, tiredness, memory failures, concentration problems.

8b. Were similar problems present before the injury?
- No
- Yes

Note: If there were some problems before injury, but these have become markedly worse since injury then answer ‘No’ to Q8b.

Scoring: The patient’s overall rating is based on the lowest outcome category indicated on the scale. Refer to guidelines for further information concerning administration and scoring.

**GOSE-All Score:**
- 1-Dead
- 2-Vegetative State (VS)
- 3-Lower Severe Disability (Lower SD)
- 4-Upper Severe Disability (Upper SD)
- 5-Lower Moderate Disability (Lower MD)
- 6-Upper Moderate Disability (Upper MD)
- 7-Lower Good Recovery (Lower GR)
- 8-Upper Good Recovery (Upper GR)

- N/A, was not a worker before injury and am not a worker now
- Unknown

Specify Other

Examiner: Questions 12a & 12b ask about entire work days missed and Questions 12c & 12d ask about partial work days missed. Entire work day is defined as the number of hours the person is normally expected to work (e.g., a 4 hour work day is typically an entire work day for someone who works part-time and an 8 hour work day is an entire work day for a full time worker). Work days that are missed partially or entirely but later the missed time is made up are still counted in Questions 12a-d. Note that Questions 12c & d are for work days that are partially missed only (entire work days missed are just counted under 12a & 12b).
e. ...come in early, go home late, or work on your day off?

f. When you missed an entire work day because of problems with your physical or mental health, was this related to your head injury?

g. When you missed part of an entire work day because of problems with your physical or mental health, was this related to your head injury?

13. About how many hours altogether did you work in the past 4 weeks (28 days)? (e.g., working full-time for 4 weeks = 160 hours)

14. On a scale from 0 to 10 where 0 is the worst job performance anyone could have at your job and 10 is the performance of a top worker, how would you rate the usual performance of most workers in a job similar to yours? (i.e., compared to others with similar job requirements)

15. Using the same 0 to 10 scale, how would you rate your overall performance during the past 4 weeks (28 days)?

16. In the last two months, has your employer offered you any of the following in response to any health limitations related to your injury? (Check No, Yes, Unk (unknown) or N/A (not applicable) for each) (Examiner: also code 'yes' here if the person took advantage of an existing benefit)

1. Sick leave

2. Part-time or reduced hours

3. Modified schedule
4. Transfer to a different job with different tasks

5. Equipment/assistive technology to help perform the job

6. Job coaching/mentor to be able to do job

17. Did you attend school in the last week? (choose one)

18. What is the main reason you did not attend school in the past week? (choose one)

---

Questions 19 – 21 are asked only if they were not answered at 2 weeks or 3 months. If the questions were answered before, skip to question 22

15. Now please think of your work experiences over the past 4 weeks (28 days). In the spaces below, provide the number of days you spent in each of the following work situations. In the past 4 weeks (28 days), how many days did you:

a. ...miss an entire work day because of problems with your physical or mental health

Number of days missed: (range 0 – 28) (or choose one below)

Or:  
- N/A have not worked in the past 4 weeks (28 days)*
- Unknown

*(i.e. not in work force - retired, student, homemaker)

b. ...miss an entire work day for any other reason (including vacation)?

Number of days missed: (range 0 – 28) (or choose one below)

Or:  
- N/A have not worked in the past 4 weeks
- Unknown

*(i.e. not in work force - retired, student, homemaker)

c. ...miss part of a work day because of problems with your physical or mental health

Number of days missed: (range 0 – 28) (or choose one below)

Or:  
- N/A have not worked in the past 4 weeks (28 days)*
- Unknown

*(i.e. not in work force - retired, student, homemaker)

d. ...miss part of a work day for any other reason (including vacation)?

Number of days missed: (range 0 – 28) (or choose one below)

Or:  
- N/A have not worked in the past 4 weeks (28 days)*
- Unknown

*(i.e. not in work force - retired, student, homemaker)

- N/A have not worked in the past 4 weeks (28 days)*
- Unknown

*(i.e. not in work force - retired, student, homemaker)

f. When you missed an entire work day because of problems with your physical or mental health, was this related to your head injury?

- No
- Yes
- Refused
- N/A did not miss an entire work day due to physical or mental health

Examiner: Questions 15a & 15b ask about entire work days missed and questions 15c & 15d ask about partial work days missed. Entire work day is defined as the number of hours the person is normally expected to work (e.g., a 4 hour work day is typically an entire work day for someone who works part-time and an 8 hour work day is an entire work day for a full time worker). Work days that are missed partially or entirely but later the missed time is made up are still counted in questions 15a-d. Note that questions 15c & d are for work days that are partially missed only (entire work days missed are just counted under 15a & 15b).

If a subject is unemployed, it will be important to find out if this is the sole reason they are not working when answering the following questions. For instance a patient who would otherwise be able to work but has no job to go to would be coded as ‘0’ in 15a and ‘20’ in 15b (provided they were working a 5 day week). See details and further examples in the data dictionary.
g. When you missed part of an entire work day because of problems with your physical or mental health, was this related to your head injury?

16. About how many hours altogether did you work in the past 4 weeks (28 days)? (e.g., working full-time for 4 weeks = 160 hours)

17. On a scale from 0 to 10 where 0 is the worst job performance anyone could have at your job and 10 is the performance of a top worker, how would you rate the usual performance of most workers in a job similar to yours? (i.e., compared to others with similar job requirements)

18. Using the same 0 to 10 scale, how would you rate your overall performance during the past 4 weeks (28 days)?

19. In the last two months, has your employer offered you any of the following in response to any health limitations related to your injury? (Check No, Yes, Unk (unknown) or N/A (not applicable) for each)
(Examiner: also code 'yes' here if the person took advantage of an existing benefit)
1. Sick leave
2. Part-time or reduced hours
3. Modified schedule
4. Transfer to a different job with different tasks
5. Equipment/assistive technology to help perform the job
6. Job coaching/mentor to be able to do job

CTD Vigilance (V1)
Read the letter list at the rate of one letter per 2 seconds. On the form used, put a slash mark through each letter H that the patient responds to (raises hand or says yes). Circle any omissions (no response to the letter H). Count up the number of correct responses (hits) and the number of incorrect responses (omissions).

After a head injury or accident some people experience symptoms that can cause worry or nuisance. We would like to know if you now suffer any of the symptoms given below. Because many of these symptoms occur normally, we would like you to compare yourself now with before the accident. For each symptom listed below please select the number that most closely represents your answer.

0 = not experienced at all
1 = no more of a problem
2 = a mild problem
3 = a moderate problem
4 = a severe problem

Compared with **before** the accident, do you now (i.e., over the last 7 days) suffer from:

- **Headaches**
  - 0-Not experienced at all
  - 1- No more of a problem
  - 2- A mild problem
  - 3- A moderate problem

The Insomnia Severity Index has seven questions. The seven answers are added up to get a total score. When you have your total score, look at the 'Guidelines for Scoring/Interpretation' below to see where your sleep difficulty fits. For each question, please SELECT the number that best describes your answer.

Please rate the CURRENT (i.e. LAST 2 WEEKS) SEVERITY of your insomnia problem(s).

1. Difficulty falling asleep
   - 0 None
   - 1 Mild
   - 2 Moderate
   - 3 Severe
   - 4 Very Severe

2. Difficulty staying asleep
   - 0 None
   - 1 Mild
   - 2 Moderate
   - 3 Severe
   - 4 Very Severe

3. Problems waking up too early
   - 0 None
   - 1 Mild
4. How SATISFIED/DISSATISFIED are you with your CURRENT sleep pattern?

- 2 Moderate
- 3 Severe
- 4 Very Severe

5. How NOTICEABLE to others do you think your sleep problem is in terms of impairing the quality of your life?

- 0 Not at all Noticeable
- 1 A Little
- 2 Somewhat
- 3 Much
- 4 Very Much Noticeable

6. How WORRIED/DISTRESSED are you about your current sleep problem?

- 0 Not at all Worried
- 1 A Little
- 2 Somewhat
- 3 Much
- 4 Very Much Worried

7. To what extent do you consider your sleep problem to INTERFERE with your daily functioning (e.g. daytime fatigue, mood, ability to function at work/daily chores, concentration, memory, mood, etc.) CURRENTLY?

- 0 Not at all Interfering
- 1 A Little
- 2 Somewhat
- 3 Much
- 4 Very Much Interfering

Below each item, circle the number that best describes the level at which the person being evaluated experiences problems. Mark the greatest level of problem that is appropriate. Problems that interfere rarely with daily or valued activities, that is, less than 5% of the time, should be considered not to interfere. Write comments about specific items at the end of the rating scale.

Person Reporting
- Study participant
- Caregiver/Surrogate

Participation

1. Initiation: Problems getting started on activities without prompting
- 0-None
- 1-Mild problem but does not interfere with activities; may use assistive device or medication
- 2-Mild problem; interferes with activities 5-24% of the time
- 3-Moderate problem; interferes with activities 25-75% of the time
- 4-Severe problem; interferes with activities more than 75% of the time

2. Social contact with friends, work associates, and other people who are not family, significant others, or professionals
- 0-Normal involvement with others
- 1-Mild difficulty in social situations but maintains normal involvement with others
- 2-Mildly limited involvement with others (75-95% of normal interaction for age)
- 3-Moderately limited involvement with others (25-74% of normal interaction for age)
- 4-No or rare involvement with others (less than 25% of normal interaction for age)

3. Leisure and recreational activities
- 0-Normal participation in leisure activities for age
- 1-Mild difficulty in these activities but maintains normal participation
- 2-Mildly limited participation (75-95% of normal participation for age)
- 3-Moderately limited participation (25-74% of normal participation for age)
- 4-No or rare participation (less than 25% of normal participation for age)

4. Self-care: Eating, dressing, bathing, hygiene
- 0-Independent completion of self-care activities
- 1-Mild difficulty, occasional omissions or mildly slowed completion of self-care; may use assistive device or require occasional prompting
- 2-Requires a little assistance or supervision from others (5-24% of the time) including frequent prompting
- 3-Requires moderate assistance or supervision from others (25-74% of the time)
- 4-Requires extensive assistance or supervision from others (more than 75% of the time)

5. Residence: Responsibilities of independent living and homemaking (such as, meal preparation, home repairs and maintenance, personal health maintenance beyond basic hygiene including medical management) but not including managing money (see #8)
6. *Transportation
0-Independent; living without supervision or concern from others
1-Living without supervision but others have concerns about safety or managing responsibilities
2-Requires a little assistance or supervision from others (5-24% of the time)
3-Requires moderate assistance or supervision from others (25-75% of the time)
4-Requires extensive assistance or supervision from others (more than 75% of the time)

7A. *Paid Employment: Rate either item 7A or 7B to reflect the primary desired social role. Do not rate both. Rate 7A if the primary social role is paid employment. If another social role is primary, rate only 7B. For both 7A and 7B, "support" means special help from another person with responsibilities (such as, a job coach or shadow, tutor, helper) or reduced responsibilities. Modifications to the physical environment that facilitate employment are not considered as support.
0- Full-time (more than 30 hrs/wk) without support
1- Part-time (3 to 30 hrs/ wk) without support
2- Full-time or part-time with support
3- Sheltered work
4- Unemployed; employed less than 3 hours per week

7B. *Other employment: Involved in constructive, role-appropriate activity other than paid employment. Check only one to indicate primary desired social role:
Childrearing/care-giving, no childrearing or care-giving
Student
Volunteer
Retired
0- Full-time (more than 30 hrs/wk) without support; full-time course load for students
1- Part-time (3 to 30 hrs/ wk) without support
2- Full-time or part-time with support
3- Activities in a supervised environment other than a sheltered workshop
4- Inactive; involved in role-appropriate activities less than 3 hours per week

8. Managing money and finances: Shopping, keeping a check book or other bank account, managing personal income and investments
0- Independent, manages money without supervision or concern from others
1- Manages money independently but others have concerns
2- Requires mild assistance or supervision from others (5-24% of the time)
3- Requires moderate assistance or supervision from others (25-75% of the time)
4- Requires extensive assistance or supervision from others (more than 75% of the time)
DIRECTIONS: Below are five statements with which you may agree or disagree. Using the 1-7 scale, indicate your agreement with each item by selecting the appropriate number for that item. Please be open and honest in your responses.

1. In most ways my life is close to my ideal.

2. The conditions of my life are excellent.
3. I am satisfied with my life.

4. So far I have gotten the important things I want in life.

5. If I could live my life over, I would change almost nothing.

**SF-12®:**

Answer every question by placing a check mark on the line in front of the appropriate answer. It is not specific for brain injury. If you are unsure about how to answer a question, please give the best answer you can and make a written comment beside your answer.

1. In general, would you say your health is:

- 1 - Excellent
- 2 - Very Good
- 3 - Good
- 4 - Fair
- 5 - Poor

The following two questions are about activities you might do during a typical day. Does YOUR HEALTH NOW LIMIT YOU in these activities? If so, how much?

2. MODERATE ACTIVITIES, such as moving a table, pushing a vacuum cleaner, bowling, or playing golf:

- 1 - Yes, Limited A Lot
- 2 - Yes, Limited A Little
- 3 - No Limiting

# Instructions
This questionnaire asks about problems you may have had after a very stressful experience involving actual or threatened death, serious injury, or sexual violence. It could be something that happened to you directly, something you witnessed, or something you learned happened to a close family member or close friend. Some examples are a serious accident; fire; disaster such as a hurricane, tornado, or earthquake; physical or sexual attack or abuse; war; homicide; or suicide.

First, please answer a few questions about your worst event, which for this questionnaire means the event that currently bothers you the most. This could be one of the examples above or some other very stressful experience. Also, it could be a single event (for example, a car crash) or multiple similar events (for example, multiple stressful events in a war-zone or repeated sexual abuse).

## Have you experienced any very serious events like this?

- [ ] Yes  
- [ ] No

If yes: can you please briefly tell me what the event(s) was/were?

If you have not experienced a very stressful event like the ones described, identify the most stressful event you have ever
experienced, and then complete the questionnaire using that event as your reference for the remaining questions about how much that event has bothered you.

**Briefly identify the worst event if it is not described above:**

Keeping this worst event in mind, read each of the problems on the next page and indicate how much you have been bothered by that problem in the past month **in the past month**.

**In the past month, how much were you bothered by:**

1. Repeated, disturbing, and unwanted memories of the stressful experience?

2. Repeated, disturbing dreams of the stressful experience?
3. Suddenly feeling or acting as if the stressful experience were actually happening again (as if you were actually back there reliving it)?

4. Feeling very upset when something reminded you of the stressful experience?

5. Having strong physical reactions when something reminded you of the stressful experience (for example, heart pounding, trouble breathing, sweating)?

6. Avoiding memories, thoughts, or feelings related to the stressful experience?

7. Avoiding external reminders of the stressful experience (for example, people, places, conversations, activities, objects, or situations)?

8. Trouble remembering important parts of the stressful experience?
9. Having strong negative beliefs about yourself, other people, or the world (for example, having thoughts such as: I am bad, there is something seriously wrong with me, no one can be trusted, the world is completely dangerous)?

10. Blaming yourself or someone else strongly for the stressful experience or what happened after it?

11. Having strong negative feelings such as fear, horror, anger, guilt, or shame?

12. Loss of interest in activities that you used to enjoy?

13. Feeling distant or cut off from other people?

14. Trouble experiencing positive feelings (for example, being unable to feel happiness or have loving feelings for people close to you)?
15. Irritable behavior, angry outbursts, or acting aggressively?

16. Taking too many risks or doing things that cause you harm?

17. Being “superalert” or watchful or on guard?

18. Feeling jumpy or easily startled?

19. Having difficulty concentrating?

20. Trouble falling or staying asleep?
